Experience

Blizzard Entertainment

- **Associate Game Designer, Hero Design for [Overwatch 2](#)** 2022 – 2024
 - Developed new character abilities from concept to live production
 - Reworked characters to address critical design flaws and game balance
 - Balanced playable characters' weapons and abilities for PvE story missions
 - Led and supported multiple event game modes including the successful [April Fools](#) mode
 - Improved the console experience through adding Accessibility options and reworking haptics
 - Communicated with various departments such as QA, Audio, Narrative, Art, and Features
- **Contract Game Designer for [Hearthstone](#)** 2021 – 2022
 - Designed and implemented over 10 collectible playable characters and 30 boss encounters
 - Wrote multiple story campaigns, dialogue for characters, and additional needed text
 - Consulted on VO recording for written content
 - Balanced PvP characters and PvE encounters through post-launch updates

Projects

[Warp Dash](#) – Lead Developer 2021

- Developed for [Graffiti Games](#) while consulting with developers from Rockstar Games
- Created unique original characters while collaborating with an artist
- Programmed racing combat with character-driven abilities
- Showcased the game at the PlayNYC 2021 convention to over 1000 visitors

[Laplace's Demon Is Bored](#) – Solo Developer 2020 – 2021

- Wrote the narrative inspired by Jewish mythology and theoretical physics
- Created character designs for new characters and ones based on folklore
- Created art assets used for characters, menus, gameplay, and UI
- Programmed various tabletop games, such as Koi-Koi

[Kril](#) – Solo Developer 2018–2019

- Designed a hybrid stealth/dress-up game about the Transgender experience
- Received over 1000 downloads on itch.io
- Showcased the game at several events including Samsung's Pride and NYU Summer Games Showcase
- Participated on a panel for TransGeek speaking on the game's themes
